---

Batman: Arkham City is based on the intense and atmospheric foundation of Batman: Arkham Asylum, sending players to soar in Arkham City, a new maximum security. Batman: Arkham City is a game based on the Batman: Arkham video game series that was released for Microsoft Windows, PlayStation 3, Xbox 360 and PlayStation 4. The game features Batman, Robin, Catwoman, Nightwing, Joker and Penguin. The game was developed by Rocksteady Studios and published by Warner Bros. interactive entertainment. Players can play as either Batman or Robin. The game uses a 2D style that was designed from the point of view of the camera located on the left side.
