Movie Editor on Google Play; Share this: Like this: Post navigation 46 thoughts on "Movie Editor" Great I love the features of Movie Editor it has many features that are very useful and very useful, it's true is that really good I would tell the staff to make more options to choose the best for the user I also have downloaded Movie Editor for my cell phone it makes it a lot easier than me using Media Player and a lot of trouble. There are so many features with it that I think they really try to reach out to the public. My favorite things from it are the categories, tools, and the ability to edit movies. Thank you so much for my Android cell phone it makes a lot of work easier. Thank you for sharing the review of the Movie Editor, i love the thing to use but i don't like the design of the app, but it's okay cause i'm happy and just take the default one because the visual part is not a problem but the features is a problem so the next time i'll try to look for the apps or themes that can improve my app, thanks I used to use Videograph Movie maker on PC platform, but now i found out that Videograph Windows and Mac versions are still supported and free to download on the web, im using the Macintosh version now, the app is even better than before and the thing is

---

that it supports Mac OS Lion now which i wasnt able to have with the older Mac versions, it made my day and i thought that i must tell the Videograph movies maker to those who are looking for a free alternative to Microsoft Movie maker on Windows and or any other Movie maker apps and themes but prefer a Mac platform.
