What Is New in the Latest Patch 1.3.0 - Characters Firstly, a few changes have been made to the characters. ▼**Battle System - Characters** As the previously listed, every character has received significant adjustments. It would be hard to list them all, but one of the details is that the party members now have personality similar to their individual classes. In addition, the number of available skills, including their special skills, has been increased, and the reaction speed of the skills that you use has been increased. It is of great help to fight enemies at a close distance. - **Character Assist** Characters that have offensive assist skills have been changed to attack multiple times in a short period of time. This is done for tactics in battles against enemies that attack multiple times. ▼**Combat - Combat AI** The combat AI that controls the attention of enemies to you has been improved. Depending on the number of bodies around you, the battle AI will change. - **Defense Boost - Enhancements of Skills** Characters can now use their basic skills in a different way. The basic skills of the characters have had their rankings increased, and a few new skills have been added to them. - **Virtual Attack** The virtual attack of skills now consumes no stamina. The damage of the virtual attack is now increased, but the skill will consume less stamina. - **Skill Level** The skill level will now be displayed in the top left corner of the screen during the skill use effects to make it easier to see. ▼**Crafting - Crafting Equipments** Crafting equipments that were previously obtained from the Kingdom of Udoo through quest items have now become a part of the crafting system. Crafting and equipping equipments as you progress through quests will also be added. ▼**Quests and Enemies - Quest and Enemies** The number of times you can make a quest has been decreased for now. You can make a quest only once a day. - **Inventory** The Inventory has been improved with all of its functions. When you move the arrow
