WAS \$8.95 and now was \$9.99 Stupid thing keeps charging you one buck though once you tell the app not to charge it as a 1 time thing and turn it off and then back on again, it's gone again. However, the credits it gives you have not been charging you for a long time and I have about 300 left. So I might as well use the credits I have until they don't work after the real charges come back. Stupid thing doesn't allow you to keep the free cups. Looking at your app page, you only can get one member card anyway. Im not using one that only has one credit card on it. I'm using the pro option where you can have each charge you pay go to one of the "accumulated" accounts. I couldn't get it to work with the one I posted to be honest. I forgot how to use it being how long ago it was I was getting it installed, I remembered that I could have two credit cards on it, forgot about that and paid for it directly with my debit card. phred84 wrote: Because some people don't like the app, it took a while to get it
