\*The sound track for the Russian version was recorded at the studio CHASER (Chaos Entertainment Studios), www.chaser.ru ( The track feature the Russian voice actors of the game. \*All the tracks are in Russian version. \*This work has never been made available before for public use. \*The people from 6ound Audio have released a full English version of the game already ( so you can choose to play this one. \*In my opinion, it's the best-sounding (I think) version of the soundtrack of the game, since there are more tracks and therefore the music volume can be set closer to the maximum. Thanks for download. \*Special thanks to our partners at 6ound Audio: - Gunsmith Hype Studios
