## **What's new in LooWarVR:**

**Interview Part 1 Iyane Agossah August 28, 2019 10:50 AM EST Mike Riddle, Julian Eggebrecht, James Goddard, Eirik Hadland (CEO of Bandai Namco Studios Asia), and Sebastian Orcksich have a lot to say about the upcoming PSP remaster of the original Mass Effect while already in development. Rather than look back on the recent incident in which Bandai Namco Studios Asia made to suddenly shut down the Japanese website of Sword Art Online: Fatal Bullet, we'll be looking forward, because everyone's interested in Sword Art Online: Fatal Bullet, and here we are, talking about it. The discussion will not be restricted to Sword Art Online: Fatal Bullet, but it's a good opportunity to have a conversation about what's to come for the audience of Sword Art Online: Hollow Realization, Sword Art Online: Lost Song, Sword Art Online: Fatal Bullet, and Sword Art Online: Memory Defragmenter. We will also touch on the success of Xenoblade Chronicles 2, the mystery concerning why the state of a Korean Papyrus in Xenoblade Chronicles 2 remains unknown, and Sword Art Online: Fatal Bullet's commercial strategy. Note: For the sake of readability, anything said in this interview will be attributed to Noriyuki Fujima, executive producer of Sword Art Online: Fatal Bullet, in the following parts of the interview or parts separately. If you're interested in an interview with Noriyuki Fujima, you'd be able to find it on our interview page. Here we go. Iyane Agossah: First off, can you tell us what the team's current plans are in terms of the release date? For the PSP remaster, there's the Road to Awakening event, and a PSP remake is planned as well, but are both still part of the development work? Noriyuki Fujima: As for the Road to Awakening event, we've been developing it in tandem with the Steam release of Hollow Realization, which is for the**

**PlayStation 4. We can't ignore both releases. However, the remaster will not be a remake of the original Fatal Bullet; rather we'll be adding improvements as development goes on. We started working on the remaster after we released the second season of Sword Art Online: Hollow Realization, and**
