

In the ancient times not only witches were evil but the forests were filled with spooks and demons. They also haunted the big, dark and scary dungeons. They were searching for the weapons of the God of The Trees. Our hero, Glam, was sent by her mother to the dark depths of the forest to find the salvation of the fallen world. It is now Glam's destiny to complete the last journey. The race is on, Glam is on a quest to rescue her mother and free the world from evil. Full HD 1080p Graphics The Forest Cathedral is the first game with such nice graphics. The characters are really lifelike with impressive animations and it looks awesome. Jumping and swinging are totally smooth Screenshots Source Code Download links Gameplay Screenshots Development The game was made by a 16-year-old programmer who has had experience with mobile games development. He started making game graphics before he started programming, drawing for a whole week and then he started learning how to program on the game engine Unity. After making the graphic for the game, he then spent 6 months programming the game, designing many rooms and obstacles. His programming skill is good and he claims to be the best in the world, when it comes to Minecraft programming.
