**2: Legend of the Crystal Skull Cave Runner 2: Legend of the Crystal Skull is a 2006 platform platforming video game developed by Telltale Games and published by LucasArts for Microsoft Windows, PlayStation 2 and Xbox 360 as the sequel to the 2001 platformer Cave Runner and a reboot of the original game. Gameplay In addition to four-player cooperative gameplay, the game features an exclusive single-player mode, Race to the Death. In Race to the Death, the player takes control of defeated bosses from the game and attempts to finish their struggle using either a time limit or using a distinctive power-up known as the Curse, which will add a number of seconds to their time but permanently hinder their ability to run and jump. Every boss has its own unique set of "curses". Multiple different races can compete to see who can claim the best streak in the challenges. The Timescales are reset each time the player falls into a pit. The result is a race from zero seconds to a maximum, with all eight challenges with a specific Time. Plot While trying to find a cure for his mother's terminal disease, Adrien finds a mystical tribal artifact with a strange message left by an enemy race - the Demons. Impressed with the documentation written on the artifact, he takes it to a museum. The curator of the museum leaves the artifact in his care. With some footage of the artifact, Adrien rushes to a laboratory, where he exposes it to experimental equipment. He discovers that the artifact has the power to transfer men's souls into their bodies. Mumbled voices in the wind are heard, and Adrien rushes to the police. The detective tells Adrien that the oldest man who died in a demonic attack was a member of the demon race. He leaves saying that they're tracking the artifact. Adrien goes back to the laboratory, where he finds a strange figure. As he tries to get away, he goes back to the police, where he once again tells them that it's no longer in the facility. As he begins running, a horde of demons chases after him. He makes his way into a big building, and makes his way into a room full of people. As the people begin to revolt against the demons, Adrien is dragged down into a big pit by them and the artifact. An army of people get into the pit and fights the demons. Adrien makes his way to the top of the pit and finds the artifact. The**
