Title: Skyward Sword Review: When I was thinking of the next Zelda, the last title that I imagined was in the Skyward Sword style. I'm glad that Nintendo came up with that title instead of the more peaceful one. This game was a one of a kind masterpiece that I can't find a game of its style anywhere else. Let me tell you something, this game has over 1000 hours of playtime and it's all worth it. And there are no boring levels. I saw this game for the first time and I got hooked right away. The concept and story were really cool and I loved the plot. This game is by far the most exiting Zelda I've played so far. And I'm not kidding when I tell you that the game is heart-poundingly awesome in my opinion. I don't know if I ever could play a better game before. I thought that this game was a Game of the Year before, but there are still some games that can beat this one, but I won't tell you anything about those. Everyone that owns a Wii should have this game and try to play it a few times, just for their own sake, just to play it for the first time. Watch the review to see what it's all about. Awww. :D Title: Star Fox review: If you're into racing games, you've got to play this game. This game is about as good as a racing game can get. Though Star Fox is one of the best games I've ever played. It has really good graphics. It's got really good controls, gameplay, and soundtrack. I play this game all the time and I don't really know how to go on with the game. The game is filled with cutscenes, but the cutscenes don't screw with the game. I like the game much more than the first Star Fox. I love this game and I think everyone should play this game. It's basically one of the best games ever. It has 600 hours of gameplay, and everything is satisfying. If you love Star Fox and racing games, you should get this game. Star Fox is a really fun game in my opinion. It's the best game ever! :D Title: The Elder Scrolls Review: If you like Elder Scrolls, I think this will be your game. Though the game is for the computer, you can buy the game for your Nintendo console like the GameCube. The best features that this game has are the characters are moving bff6bb2d33
