Components of AutoCAD as of 2013 AutoCAD is a feature-rich 3D-CAD that is capable of 3D modelling. It contains integrated drafting, documentation, animation, design, and manufacturing tools. It is used to create architectural designs, electrical diagrams, mechanical designs, and technical drawings. AutoCAD can also help to design the layout of a house, office building, or factory. In recent years, there has been a resurgence of interest in AutoCAD and with the increased use of computers in schools and CAD programs as free software, a lot of new users are finding their way into AutoCAD. Users will often use the 2D Drafting feature in AutoCAD to create architectural drawings and architectural plans. AutoCAD is used for architectural design work for both private residences and business. AutoCAD 2010 is a recent release of AutoCAD. History AutoCAD has changed dramatically over the years. Its predecessor, AutoCAD R12, was released in December 1982 as a desktop application. AutoCAD R12 was the first commercially available CAD application for the Apple II. The first two subsequent releases of AutoCAD were for microcomputers, running on the IBM PC or IBM compatible. The software was also ported to the Atari 8-bit family, and later the Apple IIGS. The current release, AutoCAD 2010, was released in December 2009. AutoCAD 2016 is the current release. AutoCAD 2017 is the new release. R12 was originally designed by Don Woods, Sr., who owned Wood Systems, a graphics lab for technical and architectural drawings. Woods made the software in his spare time, and it was originally a very simple drawing application. In 1983, Woods created a new company, D.A. Woods, Inc., which created the AutoCAD software. In 1984, Wood Systems was bought out by the top-selling CAD publisher, Micro/Vernon. The company started to acquire many small CAD and graphics applications and integrated them into one product called CAD/CAM Manager. AutoCAD was one of the applications added to the product. In 1985, AutoCAD (which then only ran on a microcomputer) was created. In 1985, AutoCAD was sold to Autodesk. AutoCAD is a registered trademark of Autodesk, Inc. Versions It is recommended that new users of AutoCAD 2010 do

There are a large number of third-party extensions, such as: InstantCAD 3D, a three-dimensional (3D) CAD design application, for the Windows OS. CADeXchange, an AutoCAD-based software for Microsoft Windows for the users to view and manage CAD models, drawings and drawings. It can be used as CAD viewer, CAD printer or CAD router. AutoCAD Excel, a version of AutoCAD with a Windows interface to Excel, for the Windows OS. GDFX, a graphical data exchange format that enables users to exchange data and drawings between AutoCAD and the other products that support it, such as Grasshopper, KiCAD, GDView, PowerFactory, RADsoft Connect and others. AutoCAD Modelling Language (AML), a high-level programming language based on AutoLISP and VBA. A number of OEM software vendors have customised AutoCAD to be integrated into their products. Some of these products include: DesignWeb, a visual programming environment based on a declarative architecture, allows users to design and simulate circuit boards. Process Planner, a free cross-platform web-based application that allows users to plan manufacturing processes, including operating a machine shop and converting drawings into 3D models. Third-party add-ons AutoCAD also supports several third-party add-ons: AutoCAD Architecture, AutoCAD Architecture Lite, AutoCAD Civil 3D, AutoCAD Electrical, AutoCAD Electrical Lite, AutoCAD MEP, AutoCAD MEP Lite, AutoCAD Mechanical, AutoCAD Mechanical Lite, AutoCAD Plant, AutoCAD Plant Lite, AutoCAD Structural 3D, AutoCAD Structural, AutoCAD Structural Lite, AutoCAD Video, AutoCAD Video Lite, AutoCAD Wall Design, AutoCAD Architectural Design, AutoCAD Mechanical Design, AutoCAD Electrical Design, AutoCAD Civil 3D Design, AutoCAD GeoDesigner, AutoCAD FEM, AutoCAD Digital Draughtsman, AutoCAD Digital Draughtsman for Windows Designer, HyperAQ Caddie, KiCAD, NE DesignStudio,

Hampshire to target Reds Jake White has chosen the onus to fight England selection by guiding his county side to a seven-wicket win over Nottinghamshire. The 26-year-old Warwickshire all-rounder fell to the second ball of the innings, but White's men, in their first three-day match of the season, saw off their visitors by 179 runs with two sessions to spare. Nathan Astle (3-16) took four of the five wickets to fall, while Martin McCalman (2-25) and Gary Wilson (2-26) also claimed two each. With Durham their hosts for the first time in the LV= County Championship, Hampshire struggled in their second game of the season, having collected just 11 points from their opening six games. Hampshire's ODI record is better, with four wins and two losses from five matches. But the hosts have a way to go if they are to reach the threshold of their target of eight points from the 21 points available, considering they have played more games than their opponents. "It's been a great start for us," said White. "We've always been a great ODI side, but we need to get back into the Championship and that is going to be challenging. "But we've been seeing pretty good bowling these last few weeks and it's been going well. Our fielding has been as good as we have ever had and we've scored plenty of runs, but we have let ourselves down a bit with the bat. "This was another one where we have looked after the new ball, bowled the right lengths and our batsmen have got themselves out of trouble." Despite their opening position, Hampshire batted impressively and chased down Nottinghamshire's 222 for seven in 34.4 overs with 16 balls to spare. Needing 201, they needed to score in four and a half sessions and White's openers were soon in trouble. Tim Murtagh (3) and Callum Thorp (19) were both run out off the second and third balls, and the second wicket pair were 17 for the fourth over. Hampshire's openers Nick Knight (16) and Dan Redfern (33) added just 12 before the latter was dismissed by Astle for his third wicket. James Tredwell, who was the last England wicket to fall in the
