They killed him and then planted his body in my car. So I can't even move. I still have the strength not to lose consciousness. And then I have to stay awake to know what's going to happen. I have to know what's going to happen to him, because I love him so much that I couldn't bear to lose him. I have to stay strong so I don't lose consciousness. I must know what's wrong with him, for I love him so much that I can't bear it if I lose him. Just as long as he's alive, then I'll still love him. And if he's dead? Dead forever? Dead... What's the matter with me? It's like I'm delirious, I don't know what I'm saying or doing. I'm drawn to him, he's so beautiful. He just can't be dead. I love him so much! I love him. If he dies, I can't live, I can't survive, I just can't. I won't be able to look people in the eye and pretend nothing happened. I won't be able to. The tears come out of my eyes. I know I'm stupid, but I can't. What is happening to me, can you explain it to me? I don't even realize what it is. I love him so much I'd give my life for him. Yes, yes, I'm talking about the love that many people feel, but not me. Every day I see him, I talk to him, but I don't have the feelings I had with other guys. But those are the only feelings I'm willing to experience. I'm willing to kill for him. I love him and I hate him. I hate him for what he did to me. But I also love... How can I live?! There is no happiness and love in my world, no, it left it as soon as I started dating Sanya. And I think I fell in love. With him... But we're not a couple, we're connected by something more - friendship... I don't want that. I love him and hate him. And how to live?! There's no happiness and love in my world, no, it left it as soon as I started dating Sanya. But we're not a couple, we're connected by something more - friendship...
